Basics

I am a self-taught JavaScript developer seeking a career change into web development. I have a love for learning and find satisfaction in applying new skills well. I have a strongly instilled team-oriented work ethos — I desire team success, not just personal success.

Technical Skills

- HTML
- CSS
- JavaScript
- TypeScript
- React
- Unit Testing and Debug
- Responsive Web Design
- Functional Programming
- Time management
- Problem Solving

Workplace Skills

- Clear, concise communicator
- Ability to listen
- Ability to empathize
- Punctual
- Respectful
- You can tell me I'm wrong and I won't get upset
